KELVEEN - the new LED table and floor luminaires for the office sector are powerful lighting solutions in a new design. Equipped with cutting edge optical components, they create a perfectly adjustable working and reading light.

A COMPELLING DESIGN

The KELVEEN range, which has enjoyed great success since its launch, is now also receiving recognition and accolades from other sources. A high-profile panel of judges awarded the KELVEEN table luminaire with the „German Design Award 2018“.

A MUST-HAVE FOR PERFECTIONISTS AND STILISTS ALIKE

With small wire cross-sections and low power requirements, LEDs are a perfect opportunity to discharge all superfluous elements and focus on the essentials of a good luminaire. Hence, a slim silhouette and filigree details emphasize the elegance of the design. Ball joints located in the base and shade of the luminaire ensure easy adjustment. There are no visible cables to detract from the overall visual appearance, as these have been incorporated into the body. The table luminaire can be controlled conveniently and intuitively via a dimmer switch, while the floor luminaire is equipped with a touch dimmer. The high-quality lamp head, which is entirely made of aluminium, ensures balanced thermal management and longevity of the integrated LED.

Due to their striking design, outstanding quality and classy finish, KELVEEN table and floor luminaires are undeniably a must-have for anyone looking for a fresh statement on their desk. The range is now available in matt graphite, matt white and matt black finishes with colour temperatures of 2700 and 3000 K.

Also cuts a fine figure in decorative applications: KELVEEN from OLIGO.

A fresh statement for the desk: KELVEEN combines technical elegance with playful ease. A luminous intensity of 1000 lumens makes it one of the most powerful and efficient LED workplace luminaires in its segment.

TECHNICAL DATA

Design:	OLIGO
Specifications:	Powerful LED table and floor luminaire
Dimensions:	Height of table luminaire: 690 mm Height of floor luminaire: 1540 mm
Performance data:	100-240 V / 50-60 Hz / LED / 2700 or 3000 K / 1000 lm / 15,8 W / CRI >90 dimmable (Dimmer switch resp. touch dimmer) Energy efficiency rating: A
Colours:	Matt Graphite, Matt White, Matt Black
